ATRS Record Template
The Council · AI Governance Playbook (Level 5 document, §3.7)

Internal pre-draft working aid aligned to the UK Algorithmic Transparency Recording Standard (ATRS).

This Council artefact is a pre-draft mapping aid, not a publishable ATRS record. At the QA date it is mapped to the gov.uk ATRS template V4.0 ('Algorithmic Transparency Recording Standard - Template', Excel file ATRS_V4.0, page last updated 8 May 2025): a Tier 1 summary and eight Tier 2 sections. Before publication, verify the current standard and guidance, then transfer the content into the current, unaltered official GDS / gov.uk Excel or Google Sheets template; the official template is the canonical record. Complete it in clear, plain language and full sentences (Playbook §3.7).

Disclosure scope — AIR-ID (system): _____; UC-ID(s): _____; purpose/outcome and public-facing scope: _____. Link each disclosure to its supporting use-specific decision and evidence. One system record/publication does not approve other UC-IDs; publication eligibility and authority are checked separately.

Control field	**Controlled value**
Internal artefact status	Pre-draft mapping aid — not suitable for publication
Canonical standard at QA date	gov.uk ATRS template V4.0 (last updated 8 May 2025; structure re-checked 29 September 2026)
Publication control	Transfer into the current unaltered official template and revalidate every prompt at publication
Current source verified by / date	

TIER 1 — SUMMARY INFORMATION (for the general public)

1. Summary

Tool name	
Description	Two to three sentences: what the tool is, how and why it is used
Website	URL where the public can find more information, or N/A
Contact email	

TIER 2 — DETAILED INFORMATION (for specialist audiences)

2. Owner and Responsibility

Organisation and team	The Council; responsible team or service
Senior Responsible Owner	Role title
Service area	
External supplier / developer	If any: name, Companies House number and role in the tool
Procurement reference	If applicable: procurement procedure type and the supplier’s data access terms

AIR-ID	AIR-XXXX — internal join to the Register (AIG-INV-04); not transferred to the public GDS template

3. Description and Rationale

Detailed description: how the tool works and the scope of its use

Benefits expected, the previous process, and alternatives considered

4. Deployment Context

Integration into the broader operational process: how the tool's output is used in decision-making, and how outputs are reviewed by people

Appeals and review: how affected people can challenge, or seek review of, decisions the tool informs

5. Tool Specification

System architecture: components, hosting and how the tool fits with other systems

System-level inputs and outputs

6. Model Specification

Model name, model architecture, performance metrics, and the datasets used and their purposes

7. Development Data Specification

Development data: description, quantities, sensitive attributes, how the data was collected, and access and storage arrangements

8. Operational Data Specification

Operational data used in live use: description, sources, sensitive attributes and any data sharing

9. Risks, Mitigations and Impact Assessments

Identified risks and the mitigations in place

Impact assessments conducted (tick and give reference)

☐ DPIA ☐ EIA ☐ Human Rights Assessment ☐ Bias audit ☐ Other

Document control
Administrative control record. This artefact remains a working draft until formally approved.

Field	Controlled value
Document ID	AIG-ASS-10
Version	1.7 draft
Status	Draft for Council review
Document owner	AI Governance Lead
Approving body	Pending — competent Council authority under confirmed Constitution / Scheme of Delegation; AI Assurance Board provides assurance and is not presumed to hold approval authority.
Approval date	Not yet approved
Effective date	Not yet effective
Next review date	To be set on approval: 12 months after the effective date, or sooner following material change
Classification	OFFICIAL

Change history

Version	Date	Change summary	Owner
1.0 draft	6 August 2026	Document-control baseline established following full-suite quality assurance; no substantive content change.	AI Governance Lead
1.1 draft	6 August 2026	QA revision: labelled the artefact as a pre-draft aid and added canonical ATRS version controls.	AI Governance Lead
1.2 draft	19 September 2026	QA revision: added an 'AIR-ID' field to Section 2 so the internal working record can be traced to the Register (AIG-INV-04), Gate Log (AIG-DEC-04) and Monitoring and Review Log (AIG-OPS-02). Internal join only; not part of the published GDS ATRS record. No change to existing content.	AI Governance Lead
1.3 draft	29 September 2026	QA remediation — applied findings QA-071, QA-091, QA-185, QA-204, QA-221 (see QA change log). Final tidy-up: self-referencing cross-reference removed from the standards row(s) REQ-009.	AI Governance Lead
1.4 draft	30 September 2026	v3.9.1: standards cross-reference note updated to the 54-entry requirement inventory (AIG-AIMS-05 REQ-054, Civil Contingencies Act 2004, added).	AI Governance Lead
1.5 draft	1 October 2026	v3.9.3: standards cross-reference note cites the 55-entry requirement inventory (AIG-AIMS-05 REQ-055, NIST AI 600-1 Generative AI Profile, added).	AI Governance Lead
1.6 draft	2 October 2026	v3.9.5: standards cross-reference note cites the 56-entry requirement inventory (AIG-AIMS-05 REQ-056, SI 2026/425 ICO statutory code of practice on AI and automated decision-making, added). Proposed — for Council confirmation.	AI Governance Lead

Version	Date	Change summary	Owner
1.7 draft	12 October 2026	v3.9.10: standards cross-reference note cites the 58-entry requirement inventory (AIG-AIMS-05 REQ-057 DAMA-DMBOK and REQ-058 ISO/IEC 5259, added as voluntary data governance references). Proposed — for Council confirmation.	AI Governance Lead

NOT APPROVED — PROPOSED INTEGRATION ANNEX

Integration annex — Internal ATRS preparation and release boundary

DRAFT FOR COUNCIL REVIEW • 25 September 2026 • Not approved for operational use

Internal mapping aid only

This remains an internal pre-draft mapping aid, not the canonical GDS/government ATRS record and not a public record. Before any proposed external use, an authorised owner must verify the then-current official standard/template and each prompt, prepare the canonical record, complete required privacy/security/legal review, and obtain separate publication authority under Council process. This annex does not approve or announce publication.

Internal identifiers and evidence

Use AIR-ID only after it is registered in AIG-INV-04; keep the identifier as an internal join, not public-template content. Retain the ATRS mapping aid and its sources in their native records, using the proposed AIG-INV-04 Evidence Index Evidence ID with source/version, date and controlled location. Do not include confidential or personal material in a public-facing record merely because it is indexed internally.

Decision, monitoring and changes

Any authorised publication or non-publication decision must be recorded in AIG-DEC-03 or authoritative forum minutes; AIG-DEC-04 may only point to an actual dated Gate Event or Condition (ID/date), never serve as the publication decision. Maintain accuracy against current system state in AIG-INV-04 and AIG-OPS-02; reassess content after supplier/model/version, scope, purpose, or affected-user changes. Link AIG-OPS-04 where it describes challenge arrangements, without asserting that an individual case or route has been completed. If agentic capability is described, reconcile the action scope to exact AIG-AGT-04 ASBOM permissions/version, use AIG-AGT-05 only as the derived view, and AIG-AGT-06 for relevant action records; none establishes publication or authority.

Draft status

No current ATRS version, legal applicability, completed system facts, approval, or public release is represented by this annex. The retained template’s public-facing fields remain uncompleted until authorised review.

Standards and legal applicability — proposed QA cross-reference

PROPOSED QA INDEX — NOT APPROVED LEGAL ADVICE OR EVIDENCE OF COMPLIANCE. The listed instruments may be relevant to this artefact, but applicability depends on the case, service and Council delegation. Legislation, official guidance, Council policy and voluntary standards are different authority classes. The full 58-entry requirement inventory, authoritative URLs, validation owners and current versions are in AIG-AIMS-05; source checks are in AIG-AIMS-13. Do not treat a template, plan or cross-reference as completed assessment, adopted policy, ISO conformity or legal sign-off.

Requirement / instrument	Why check it here	Source
REQ-009 — Freedom of Information Act 2000 (FOIA)	Screen the legislation requirement against this artefact's actual use and record evidence/version.	https://www.legislation.gov.uk/ukpga/2000/36/contents
REQ-036 — Algorithmic Transparency Recording Standard (ATRS)	Central-government mandatory scope is distinct from proposed local-authority adoption.	https://www.gov.uk/government/publications/guidance-for-organisations-using-the-algorithmic-transparency-recording-standard/algorithmic-transparency-recording-standard-guidance-for-public-sector-bodies
