Relationships

Header row 3: Map Edge ID · From type · From ID · Relationship · To type · To ID · AIR context · Meaning / data or action flow · Link owner · Evidence / source ref · Confidence · Verified on · State · Link check

Dependency concentration

Section (row 1): DEPENDENCY CONCENTRATION / PORTFOLIO VIEW (Proposed — for Council confirmation)

Section (row 4): Threshold and portfolio summary

Fields (rows 5–11): Threshold for concern (set by the Council) · Mapped AIR-IDs on System map (distinct) · Largest component share · AIR-IDs in supplier extract (distinct) · Largest supplier share · Largest share overall (AIG-AIMS-10 M-16) · Dependencies flagged for review

Fields (row 13 A/H/L): Table 1: Components (derived from Components and Relationships) · Table 2a: Supplier extract (paste from the controlled AIG-INV-04 extract) · Table 2b: Suppliers (type each supplier once)

Header row 14: Reference ID (from Components) · Type · Name / short label · AIR-IDs relying on it · Share of mapped AIR-IDs · Concentration flag · AIR-ID · Supplier / source (from the controlled AIG-INV-04 extract) · Row check · Supplier / source · AIR-IDs relying on it · Share of AIR-IDs in extract · Concentration flag

Gaps and actions

Header row 3: Action ID · Node / AIR-ID · Gap / N-A question · Impact on map · Action owner · Due date · State · Evidence / resolution ref · Resolved on · Notes

Map changes

Header row 3: Map Change ID · AIR-ID · Map Edge ID · Change date · Change type · Previous link / access · New link / access · Access expansion? · Change owner · Review / reassessment ref · Gate Event ID (if needed) · State · Change check

ID and source rules

Header row 1: ID / link · Authoritative source · Meaning and boundary · Before adoption
